WISHBRINGER

100-point, no-wish walkthrough

A fresh-start route through Festeron, Witchville, and the tower

VERIFIED FINISH

Before you start

Fresh start, deterministic seed 1. Keep every wish unused; the full 100-point route needs no magical wish.

Act quickly: deliver the envelope at the Magick Shoppe before 5:00. Later, follow the exact mountain directions and stay clear of the moving Boot Patrol.

The instruction numbers below include every input, including waits and repeated “g” moves. The map sheets name all 52 room objects; arrows show observed connections and the four Underground rooms are distinguished by route identity.

Score checkpoints

6 points | the envelope

Wait for Mr. Crisp to produce it, then take it.

32 points | the delivery

Reach the Magick Shoppe and complete the handoff before 5:00.

55 points | rescue and branch

Free Tasmania with the branch, then collect the whistle and hat.

65 points | Transmatter

Get the piranha token and start the arcade maze.

80 points | tower security

Enter KALUZE, rescue Tasmania, and disable the second switch.

100 points | Chaos restored

Break the case with the horseshoe; put the stone into the sculpture twice.

ENDING VERIFIED

Game text confirms: "Congratulations! You've finished the story of Wishbringer!" The score is 100 points out of 100, in 189 moves.

The Wishbringer's seven wishes remain unused; the no-wish route earns the full 100 points.

The route avoids the Boot Patrol and uses the branch to rescue Tasmania without a death.

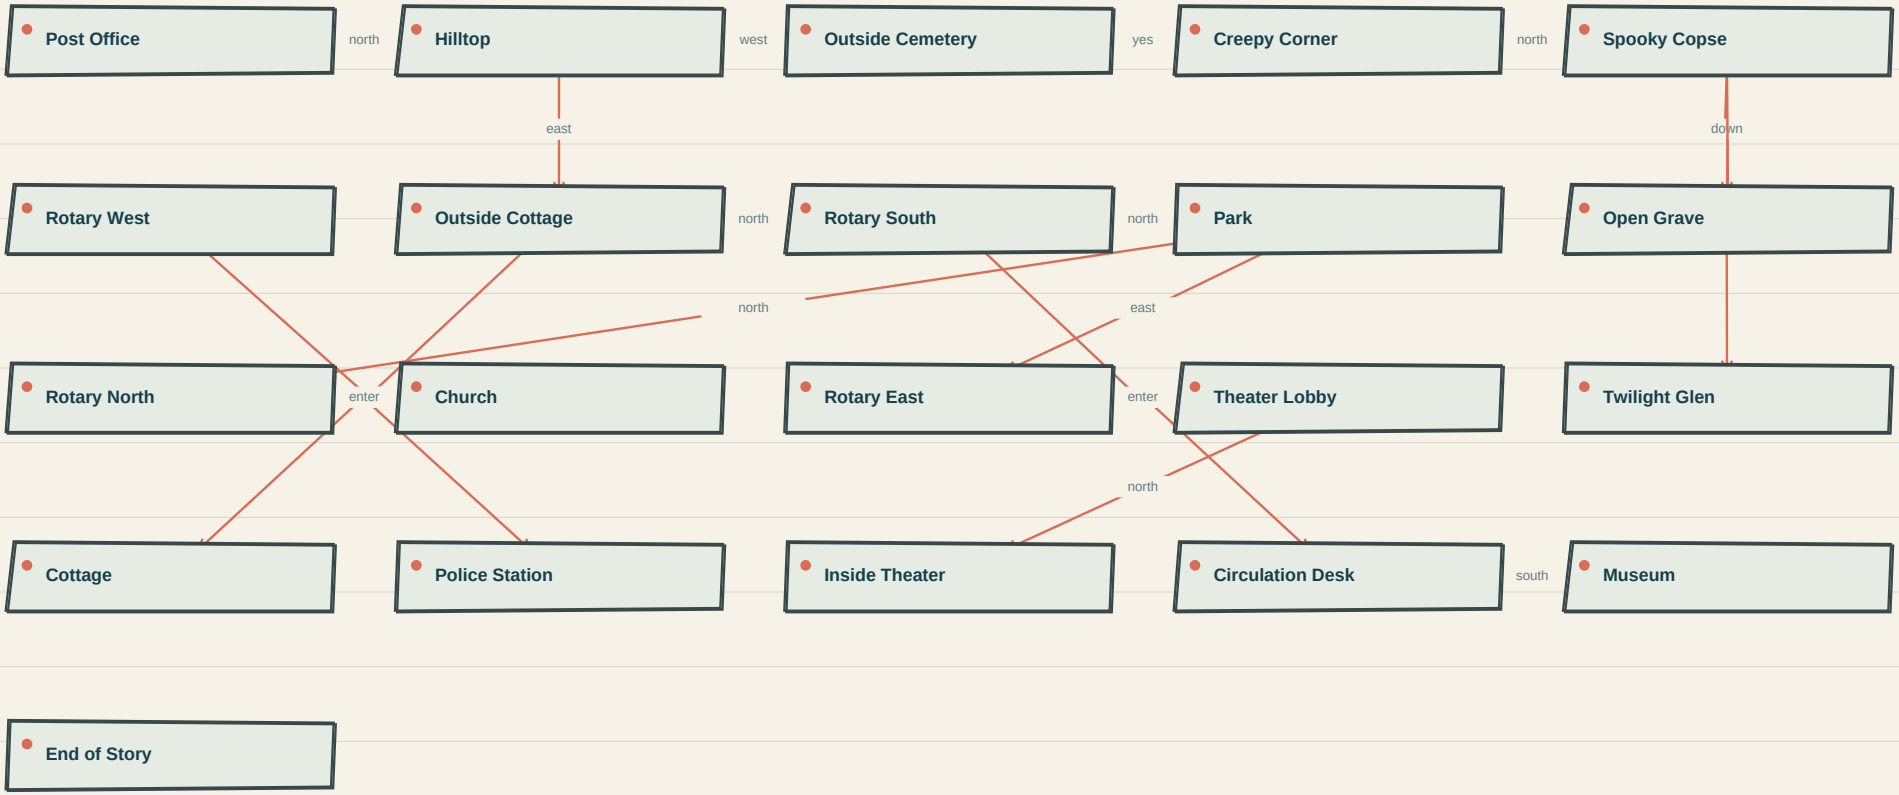
Festeron and the Witchville grid

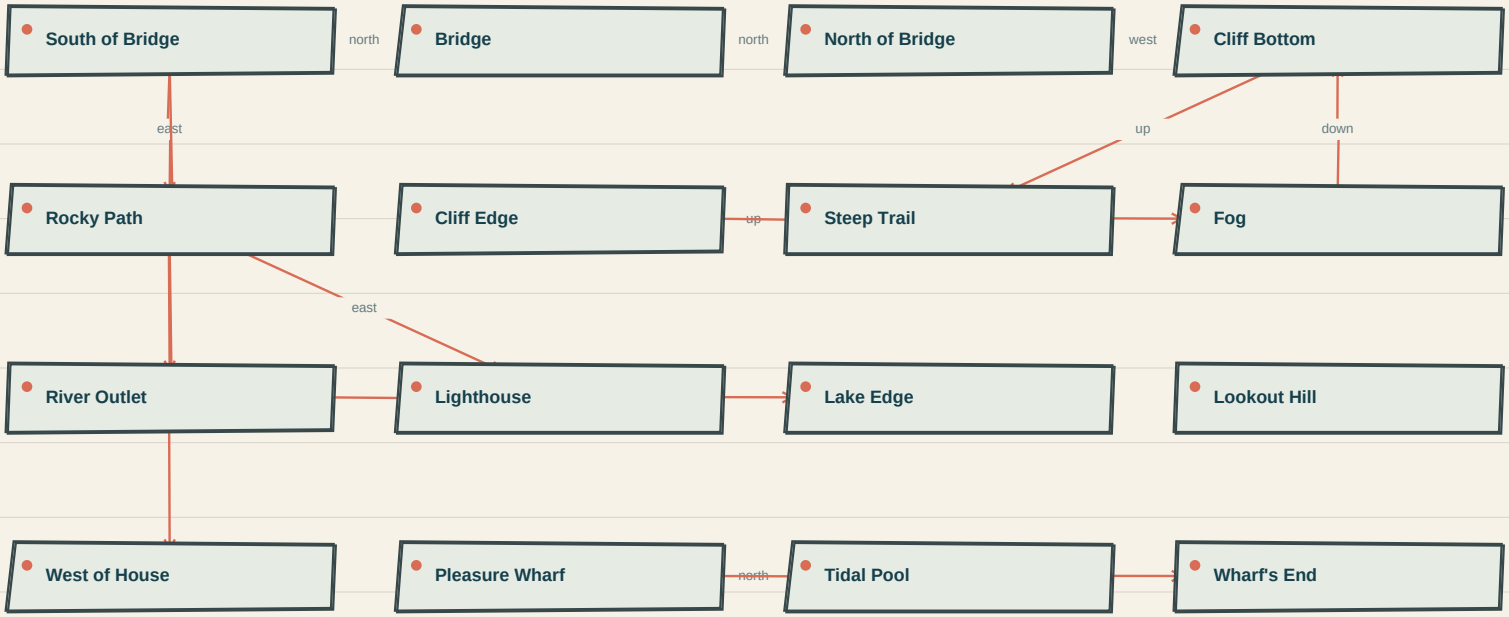
Start at the Post Office; follow the hill road into the four-sided Rotary and the cemetery lanes. The order follows route notes rather than scale.



FIELD NOTES *Arrows mark route-verified links; placement is schematic. Split Underground rooms have numeric tags. A room without a connecting arrow is still a named room in the story world; this sketch keeps crowded areas legible.*

Bridge road, mountain paths, and shore

The cliff route is hazardous after dark. Coast locations fan out from the Witchville park and lighthouse. The order follows route notes rather than scale.



FIELD NOTES *Arrows mark route-verified links; placement is schematic. Split Underground rooms have numeric tags. A room without a connecting arrow is still a named room in the story world; this sketch keeps crowded areas legible.*

Magick, tunnels, and the tower

The four Underground room objects are tagged separately because the story reuses that display name. The order follows route notes rather than scale.
