ZORK I

The Great Underground Empire

A verified maximum-score route

350 / 350 POINTS

Revision 88 | Serial 840726 | 391 moves | no deaths

Before you start

- Begin a fresh game. Enter each command exactly as shown; each numbered line is one turn.
- Keep the lantern on underground. The candles are dropped before the coal-gas chamber.
- The Damp Cave flush and the bat lifts can change your location. Follow the command list and check the room name.
- Use the deterministic replay seed 31415 for regression runs. The game itself remains a normal Z-machine story.
- The route returns to the Living Room, puts all 19 treasures in the case, verifies 350, then quits cleanly.

Score checkpoints from the successful replay

25	45/350	Painting placed in the trophy case
73	105/350	Coffin, pot of gold, and sceptre placed
204	177/350	Mine diamond and jade deposited
295	246/350	Treasure Room reached after the Cyclops
350	318/350	Skull placed; major treasure haul secured
378	335/350	Ivory torch recovered and deposited
391	350/350	Platinum bar placed - maximum score

Final check

Command 392 must report: score 350 (total of 350 points), rank Master Adventurer.
Command 394 answers yes to the quit prompt. Replay ends halted in the Living Room.

Opcode inventory and hand-sketched location maps follow. Route: .agent/regression-routes/ (local only).

SURFACE & WHITE HOUSE

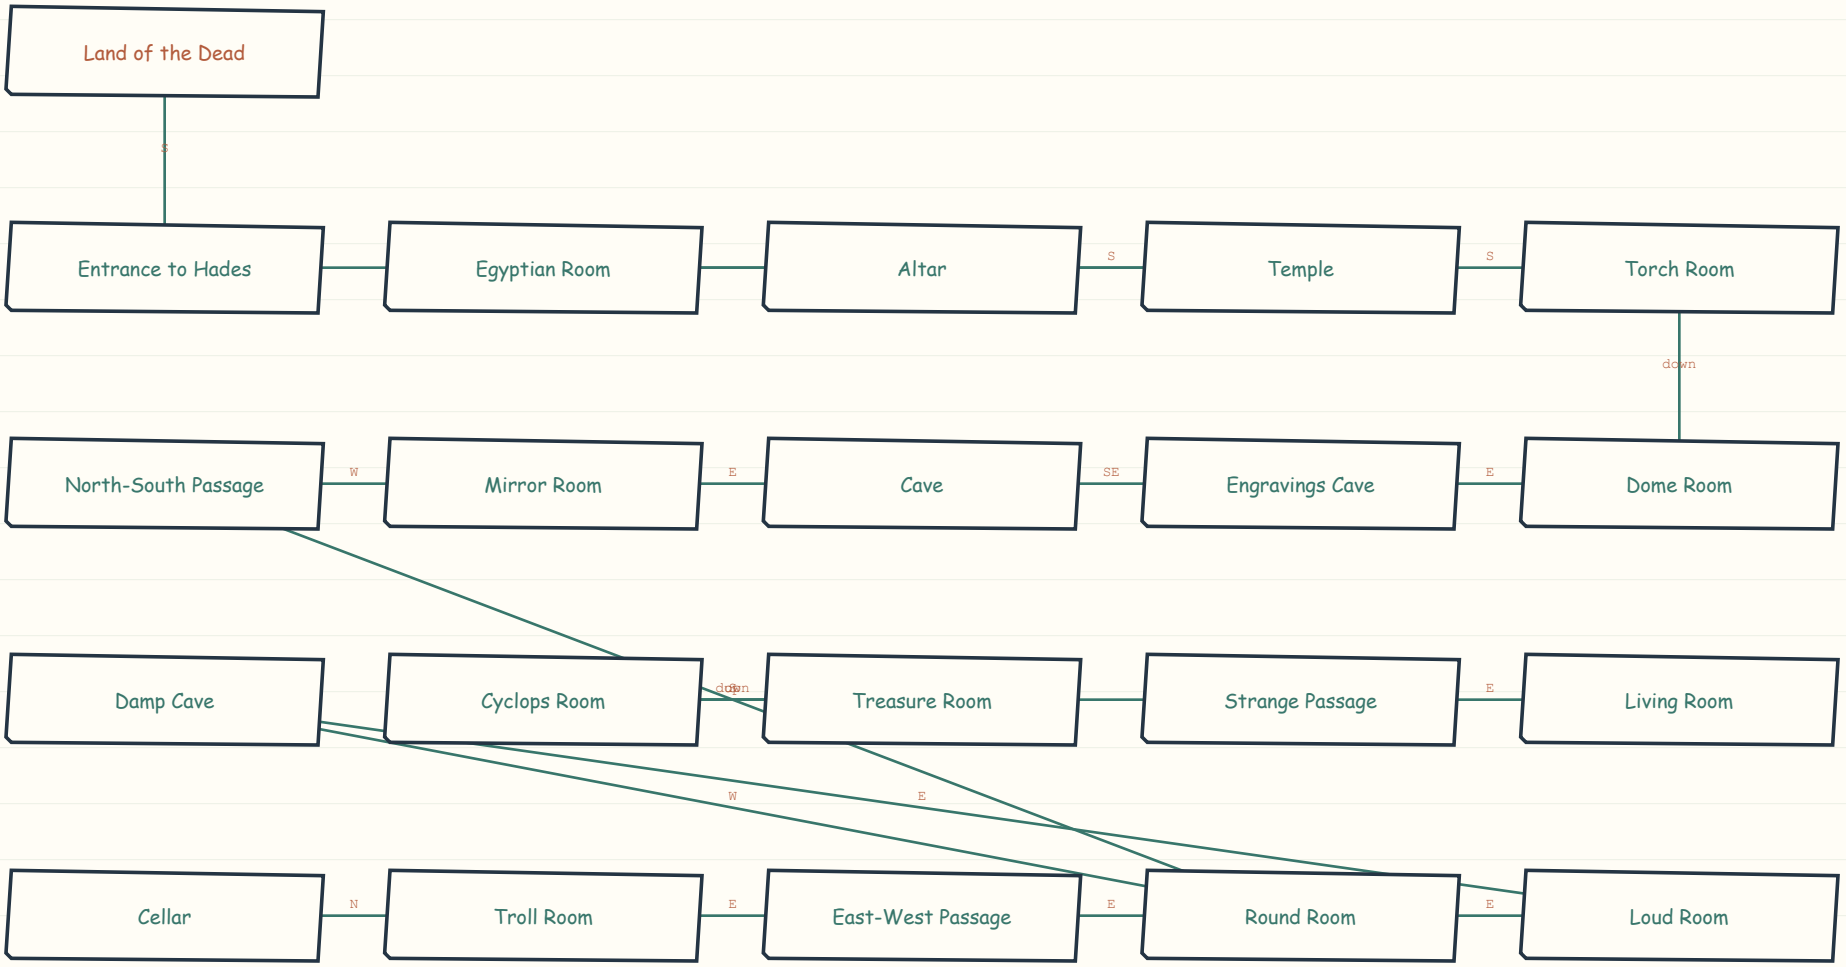

North is up. The forest walkabout and spell teleports are shown as dashed links.

The house is the central safe return point. Forest directions can wander; the tree and clearing are landmarks.

THE CAVE HUB & TEMPLE

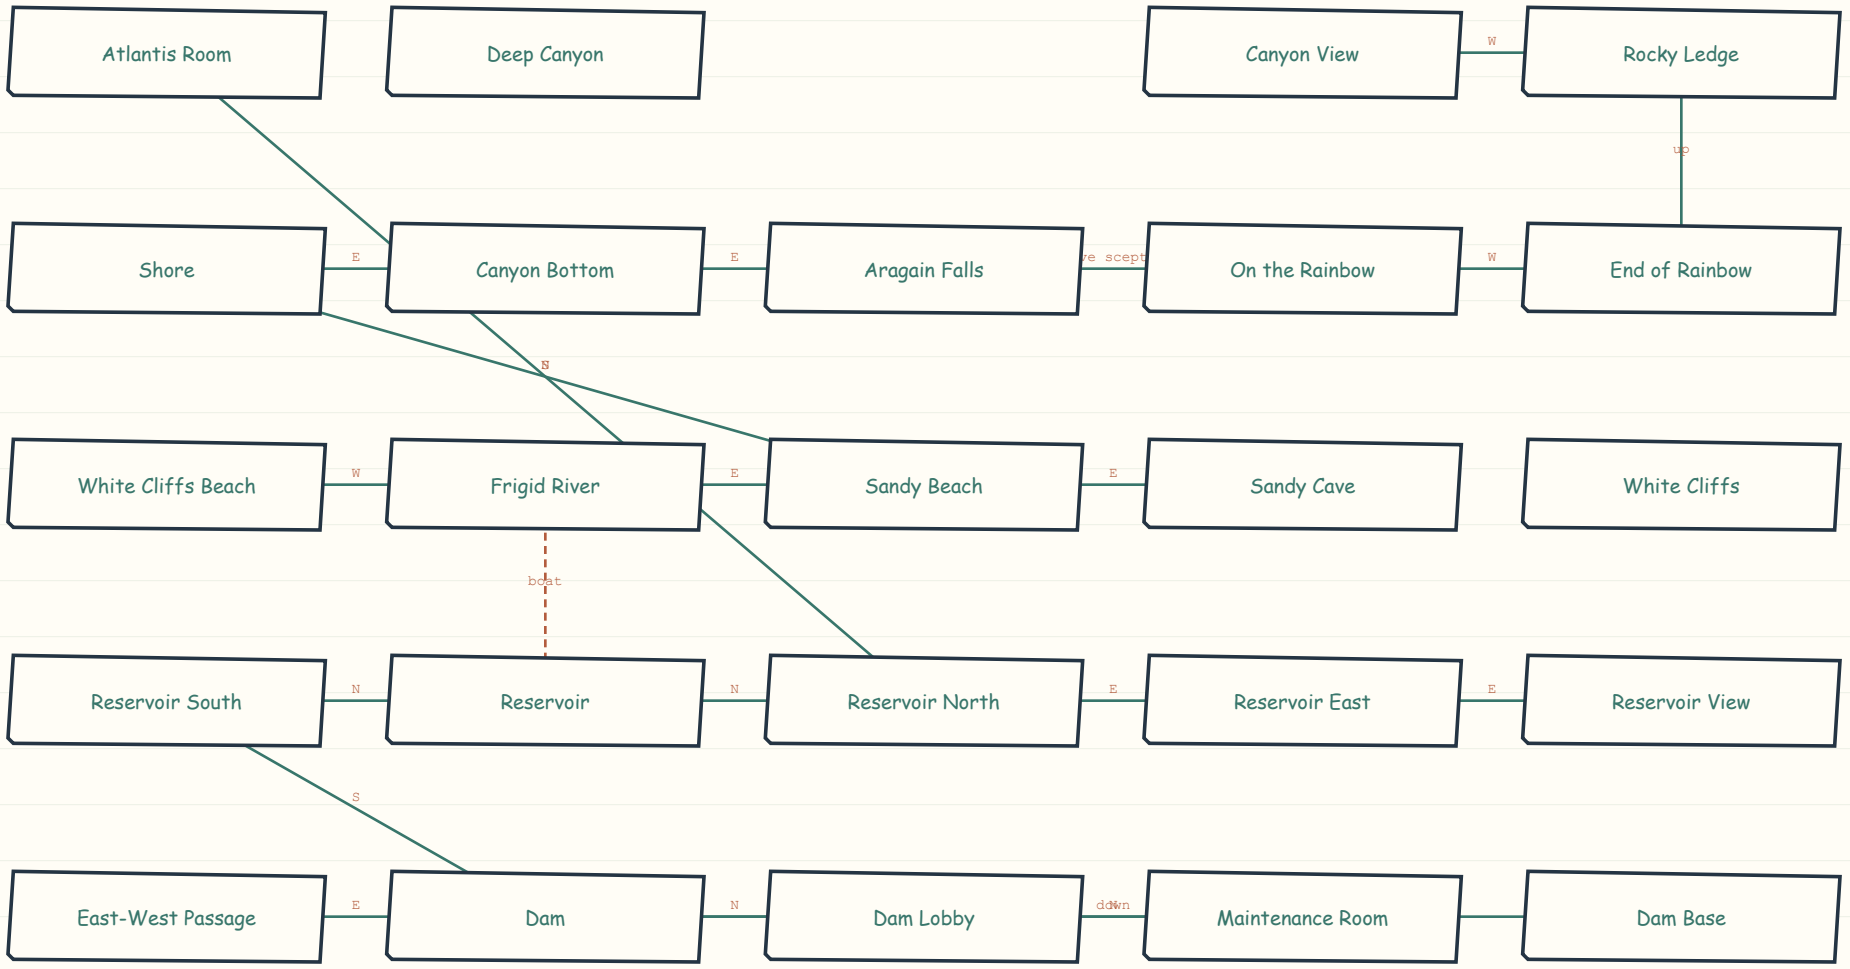

The central passage ring branches toward the Dome, Hades, Atlantis, and the maze.

The Loud Room may flush east to Damp Cave, then west to the Round Room. The maze is on map 10.

DAM, RESERVOIR & FRIGID RIVER

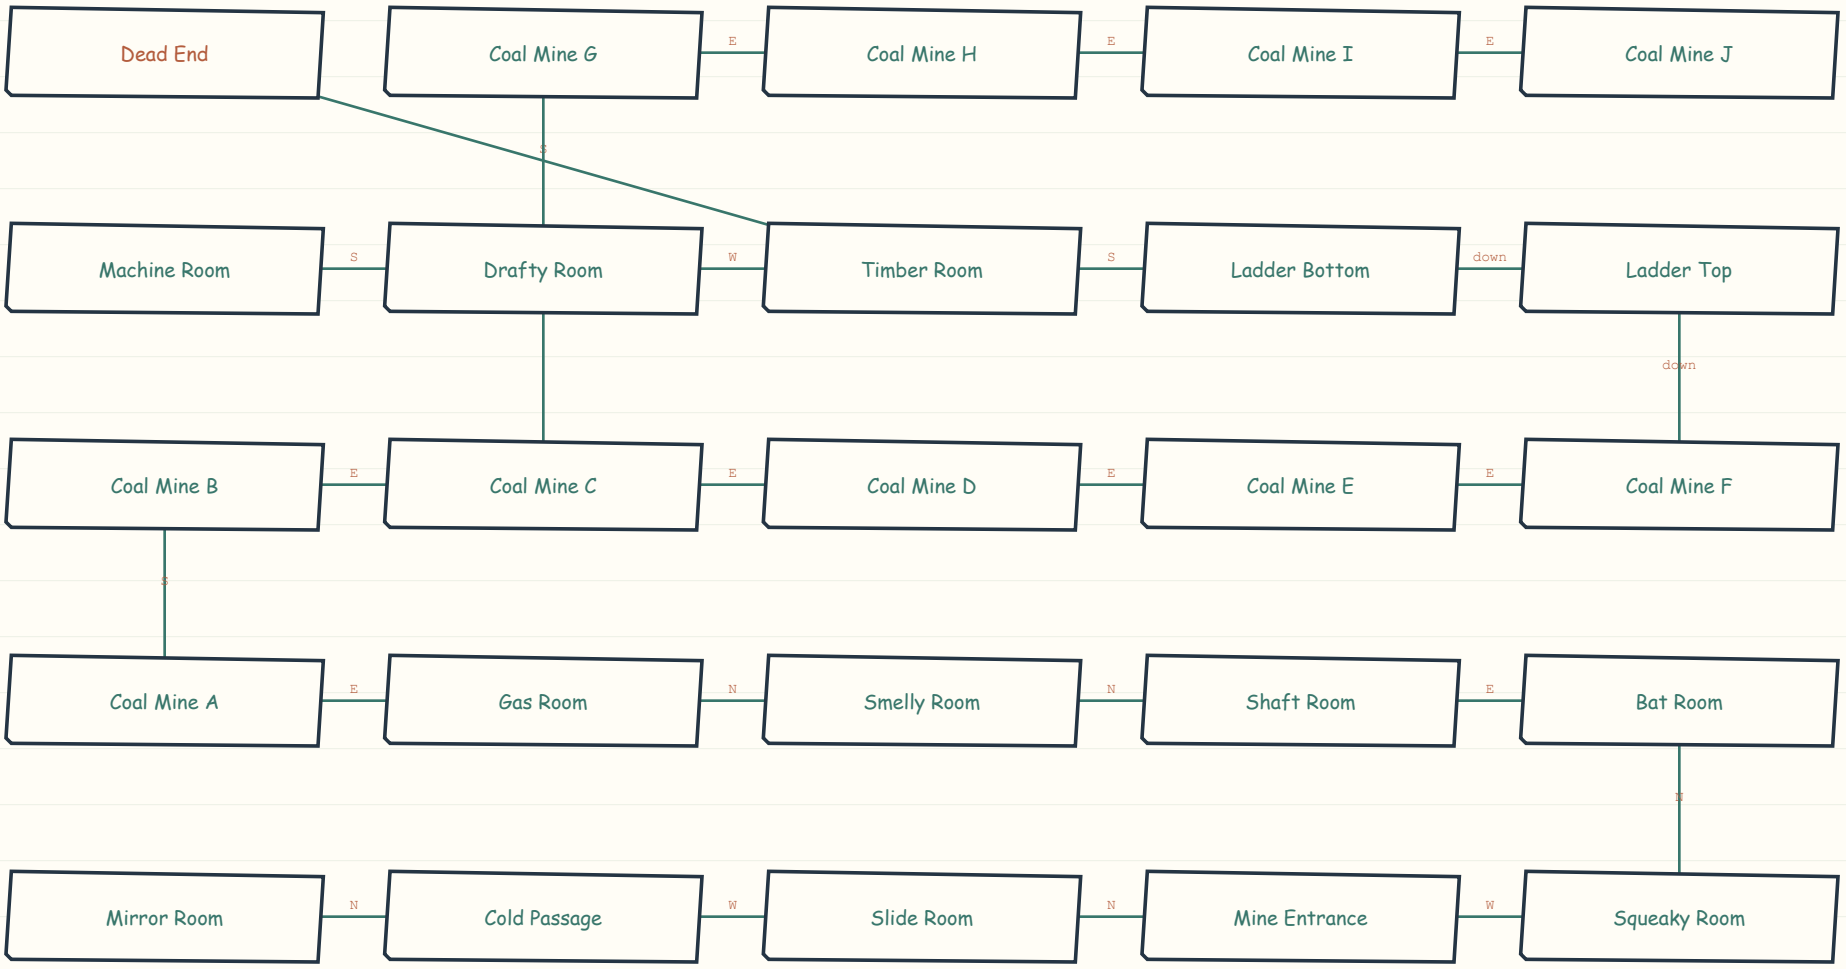

Water travel needs the inflatable boat. Dashed tracks mark river stages and shore access.

Open the dam to reach the bar by quieting the Loud Room. The boat follows the current to the eastern beach.

COAL MINE & SHAFT

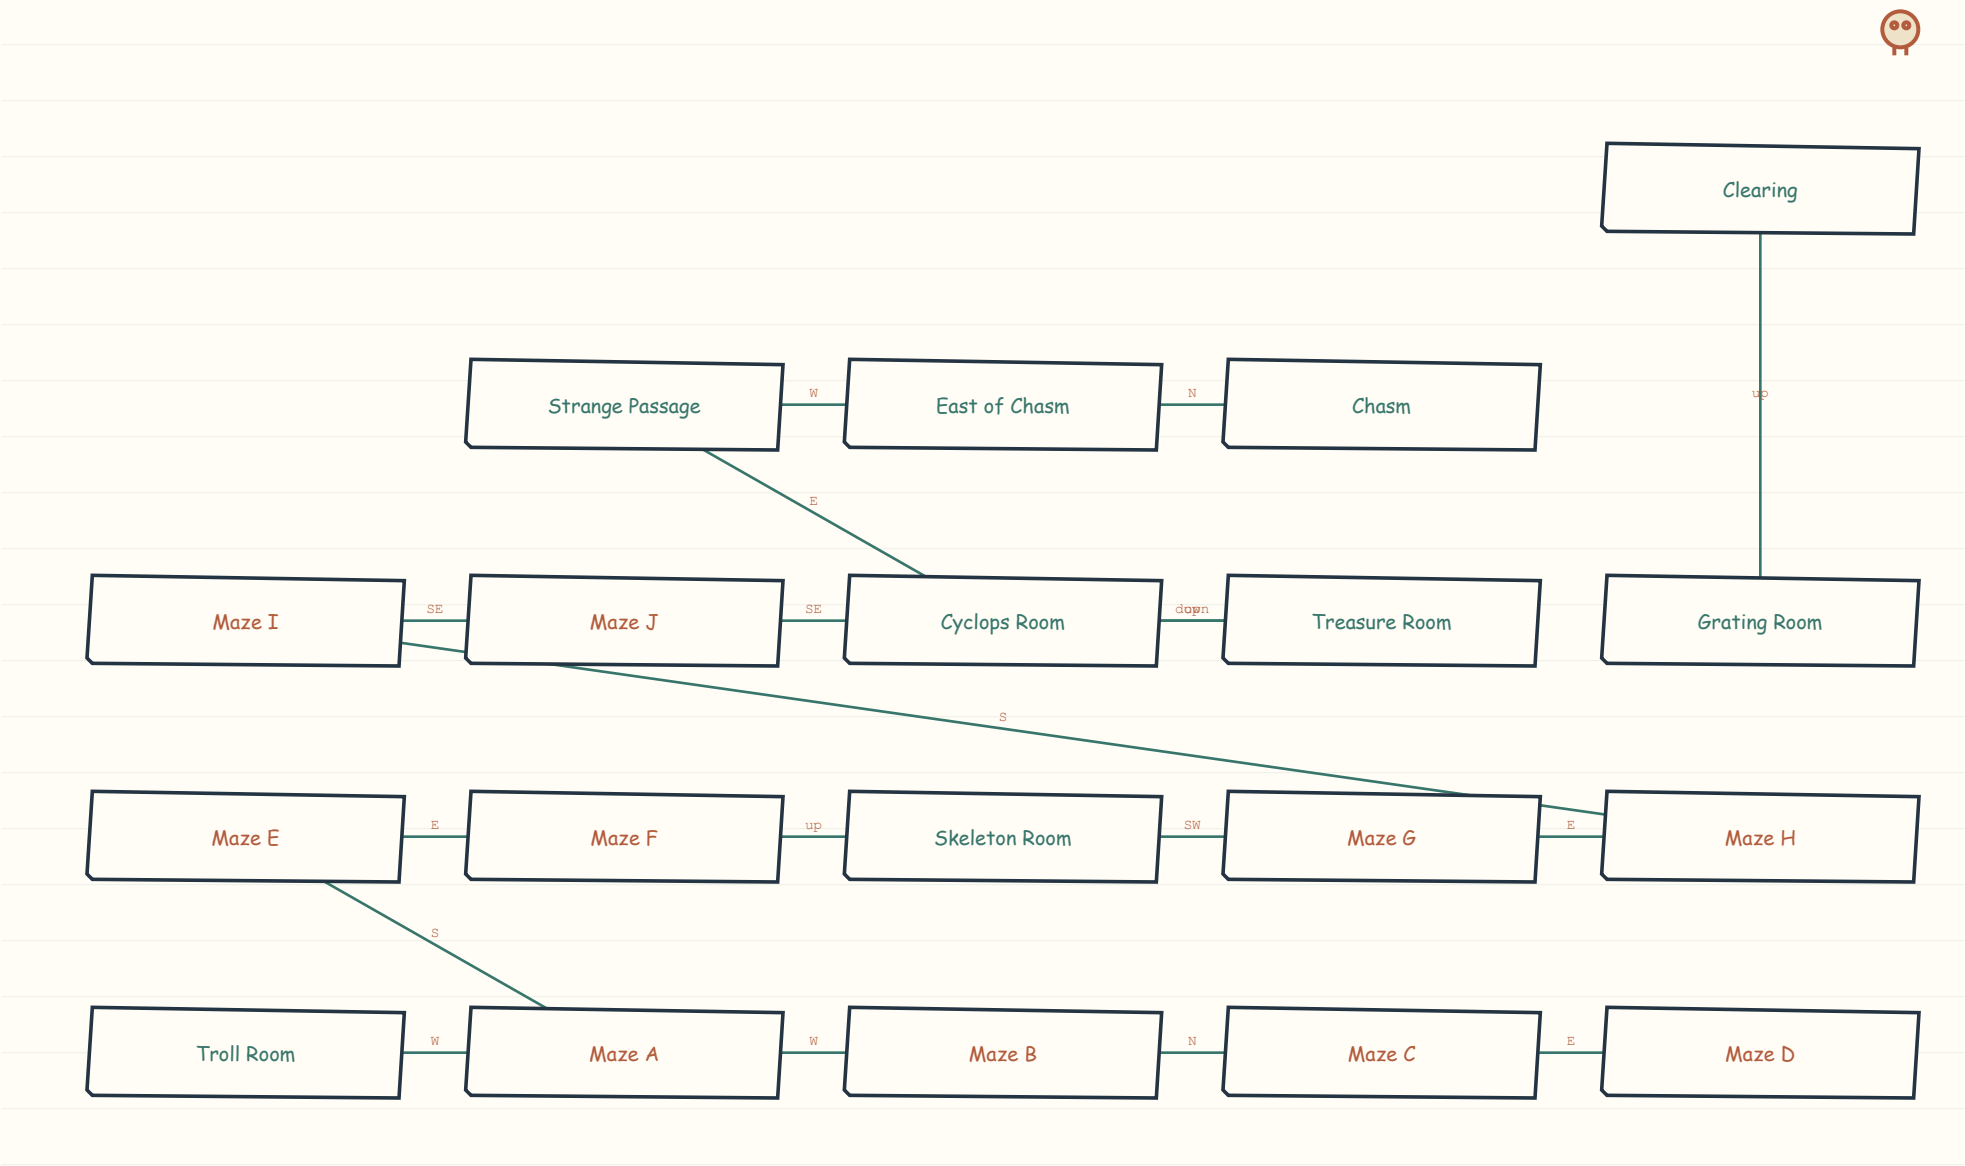

Room names are expanded from their in-game descriptions; the maze cells are distinct locations.

Basket lifts connect Shaft Room to Drafty Room. Use the lamp through the gas room; drop it before the narrow passage.

MAZE, CYCLOPS & TREASURE

The maze is intentionally irregular. Follow the known route links; same-letter branches are separate rooms.

The skeleton room holds coins and the key. Enter the grate with the key after opening it from below; Clearing leads south to Forest Path.
