SORCERER

Maximum-score victory walkthrough

A fresh-start route from the Guild Hall through Jeearr's lair to the Circle

VERIFIED FINISH

400 / 400

228 commands | 379 moves | 1 required Hollow death

221,946 executed instructions | seed 1

57 opcode rows | Release 15 | Serial 851108

Before you start

Start a fresh Release 15 game with deterministic seed 1. This verified route reaches 400/400 in 379 moves and 228 commands.

The route intentionally dies once in Hollow: after sending the parchment down the hole, wait for the Dorn, then recover at the Stone Hut. This is the sole player death on the verified maximum-score route.

Seed 1 gives the coal-dial combination 1. At the Top of Chute, drop all after tying and lowering the rope so the climb succeeds.

At Lagoon Shore, wait for the Vilstu potion to expire before sleeping. The rest prevents exhaustion during the underwater crate sequence.

Score checkpoints

75 / 400
The trunk yields the moldy Aimfiz scroll.

140 / 400
Take the single real zorkmid from the illusion tree.

205 / 400
The planned Dorn death returns you to Gaspar; recover all items and learn Swanzo.

235 / 400
Malyon opens the dragon passage to the coal mine.

320 / 400
The time loop returns the book; escape to fresh air.

400 / 400
Belboz is freed, Jeearr dissipates, and the Circle names you its successor.

ENDING VERIFIED

At 400/400, Belboz awakens, Jeearr dissipates, and the Circle names you its new leader. The final QUIT answers the ending prompt.

The four maps cover all 62 route-discovered locations. Arrows follow travel; distances are schematic.
One planned player death at Hollow is required for the verified 400-point route; there are no additional deaths.
