ENCHANTER

THE CIRCLE OF ENCHANTERS

A maximum-score route to the Circle ending

SCORE	MOVES	DEATHS	INSTRUCTIONS
400 / 400	320	0	503,562

Verified story: Z-machine V3, Release 29, Serial 860820. This fresh-game route reaches the Circle ending with 400/400 points and no deaths.

How to use this guide

Follow the numbered stages in order. Commands are shown in Courier. Directions assume the route has left you in the stated room. Eat and drink when prompted, and rest in the Bedroom and Map Room. The turtle-fetch and adventurer sequences are written out so the spells and items remain available for the endgame.

Route checkpoints

The replay consumes 233 player command inputs and 503,562 VM instructions. The final score is 400/400 after Krill is banished and the Circle ending is displayed. The local regression route records the exact command sequence.

The opcode inventory lists each unique executed instruction. Sequence numbers are 1-based; PCs are hexadecimal byte addresses.

01. Supplies and the castle gate

Collect food and water outside the castle. The crone gives you Rezrov; copy it into the spell book and use it to open the western gate.
