THE ROBNER CASE

Evidence, timing, and a verified clean finish

IMPORTANT: DEADLINE HAS NO POINTS SCORE

The story repurposes the status-line score and moves fields as a clock. The replay ends at 2:55 p.m. (14:55), not at 14 points. The success measure is the case outcome and the evidence supporting it.

Fresh-game result

ENDING	Perfect conviction of Baxter and Dunbar
CLOCK	2:55 p.m. on the in-game clock
ROUTE	196 commands | 269,606 instructions
SAFETY	No deaths | final room: Living Room
TRACE	53 unique opcodes from clean replay

The evidence chain

01 MOTIVE	Expose Baxter’s Focus embezzlement with the pad impressions, the July 8 calendar clue, the second newspaper section, the new will, and the safe papers.
02 METHOD	Recover the porcelain fragment from the rose-garden holes. Duffy links it to a teacup and confirms LoBlo; Dunbar’s medicine and confession connect the drug to the tea.
03 OPPORTUNITY	Recover Dunbar’s dropped concert stub. Her account and Baxter’s account conflict; show the stub to each while preserving the contradiction.
04 RESOLUTION	Show the Focus papers to Baxter, the lab report to Dunbar, then the ticket stub to Baxter. Arrest Baxter and Dunbar together after all evidence is in hand.

Story identity: V3 | release 27 | serial 831005 | checksum 54FC. Use the numbered route exactly; answer the prompts as listed. Story, manual, hints, route, and trace are local-only project assets.

WALKTHROUGH COMMANDS 001-098

One command per line. Type y/n exactly when an in-game question interrupts the route.

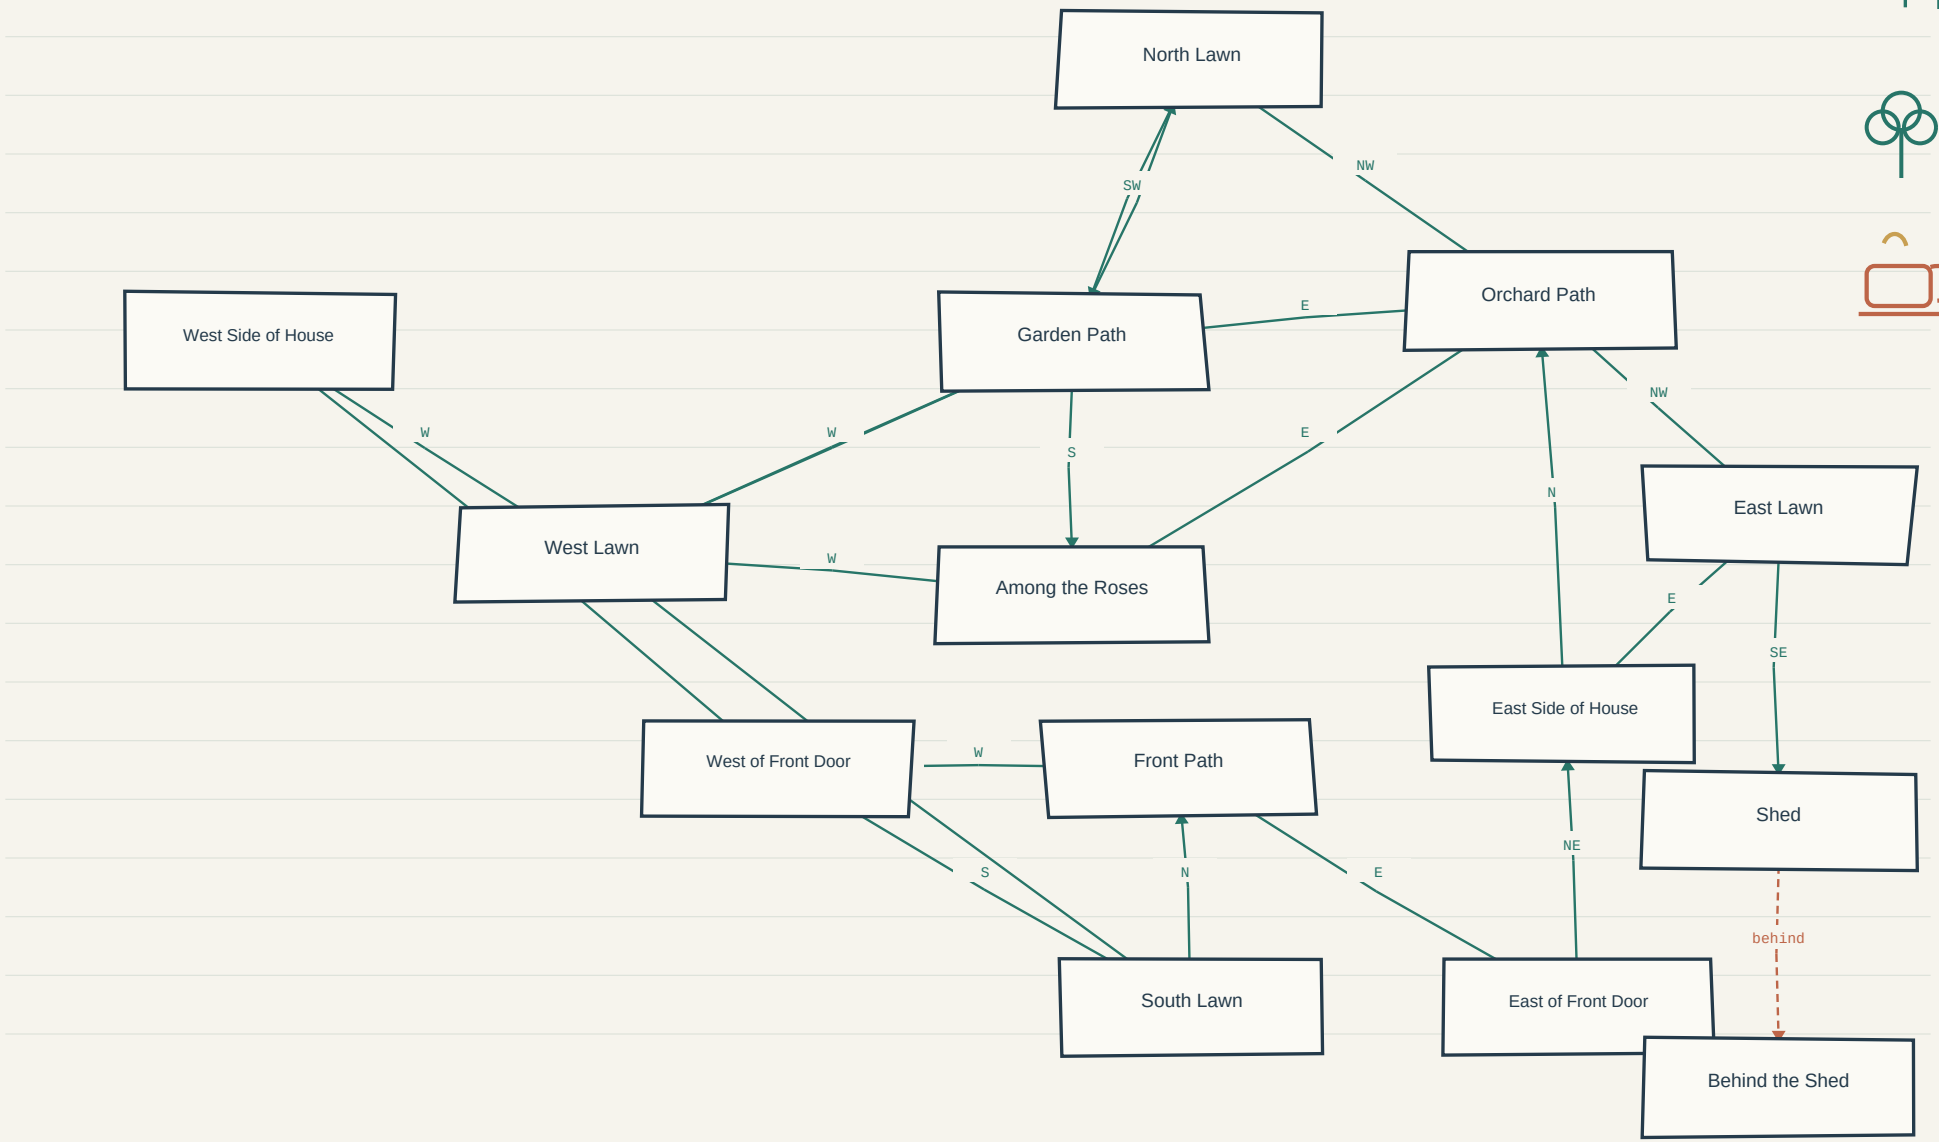
MAP 1 | GROUNDS & APPROACH

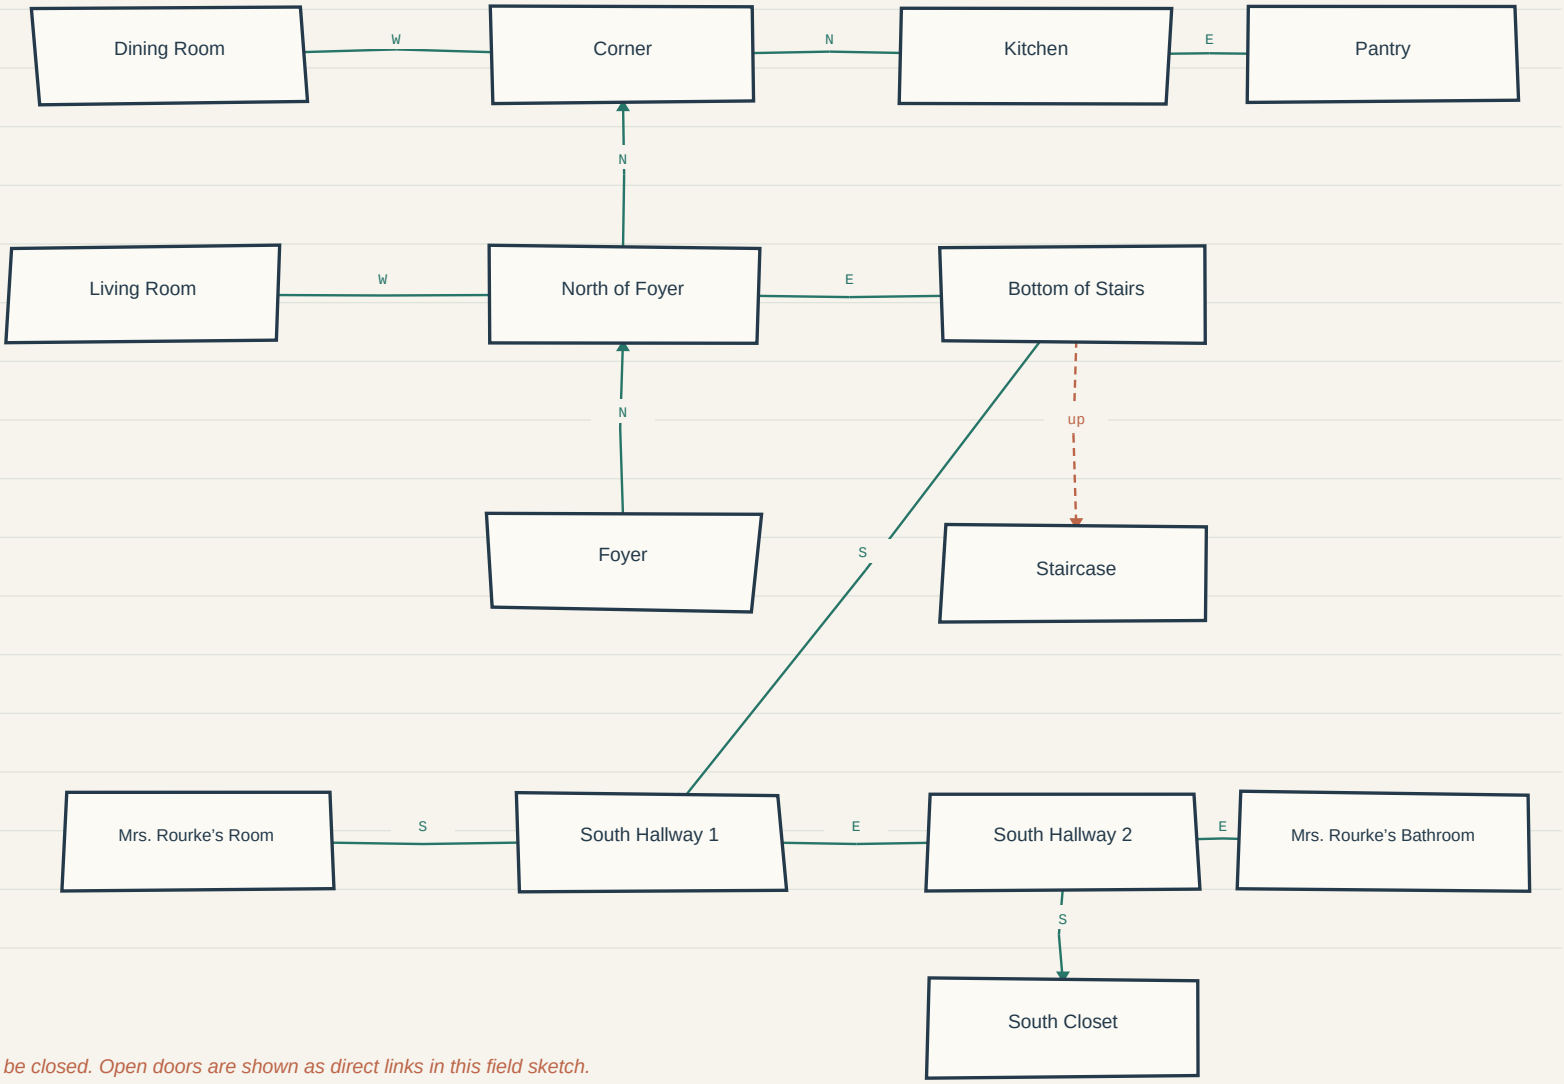
14 grounds rooms | use the estate paths; lake edges are boundaries, not exits



A ladder links the garden to the Library Balcony when it is placed in the holes; follow the game's event path for McNabb.

MAP 2 | FIRST FLOOR

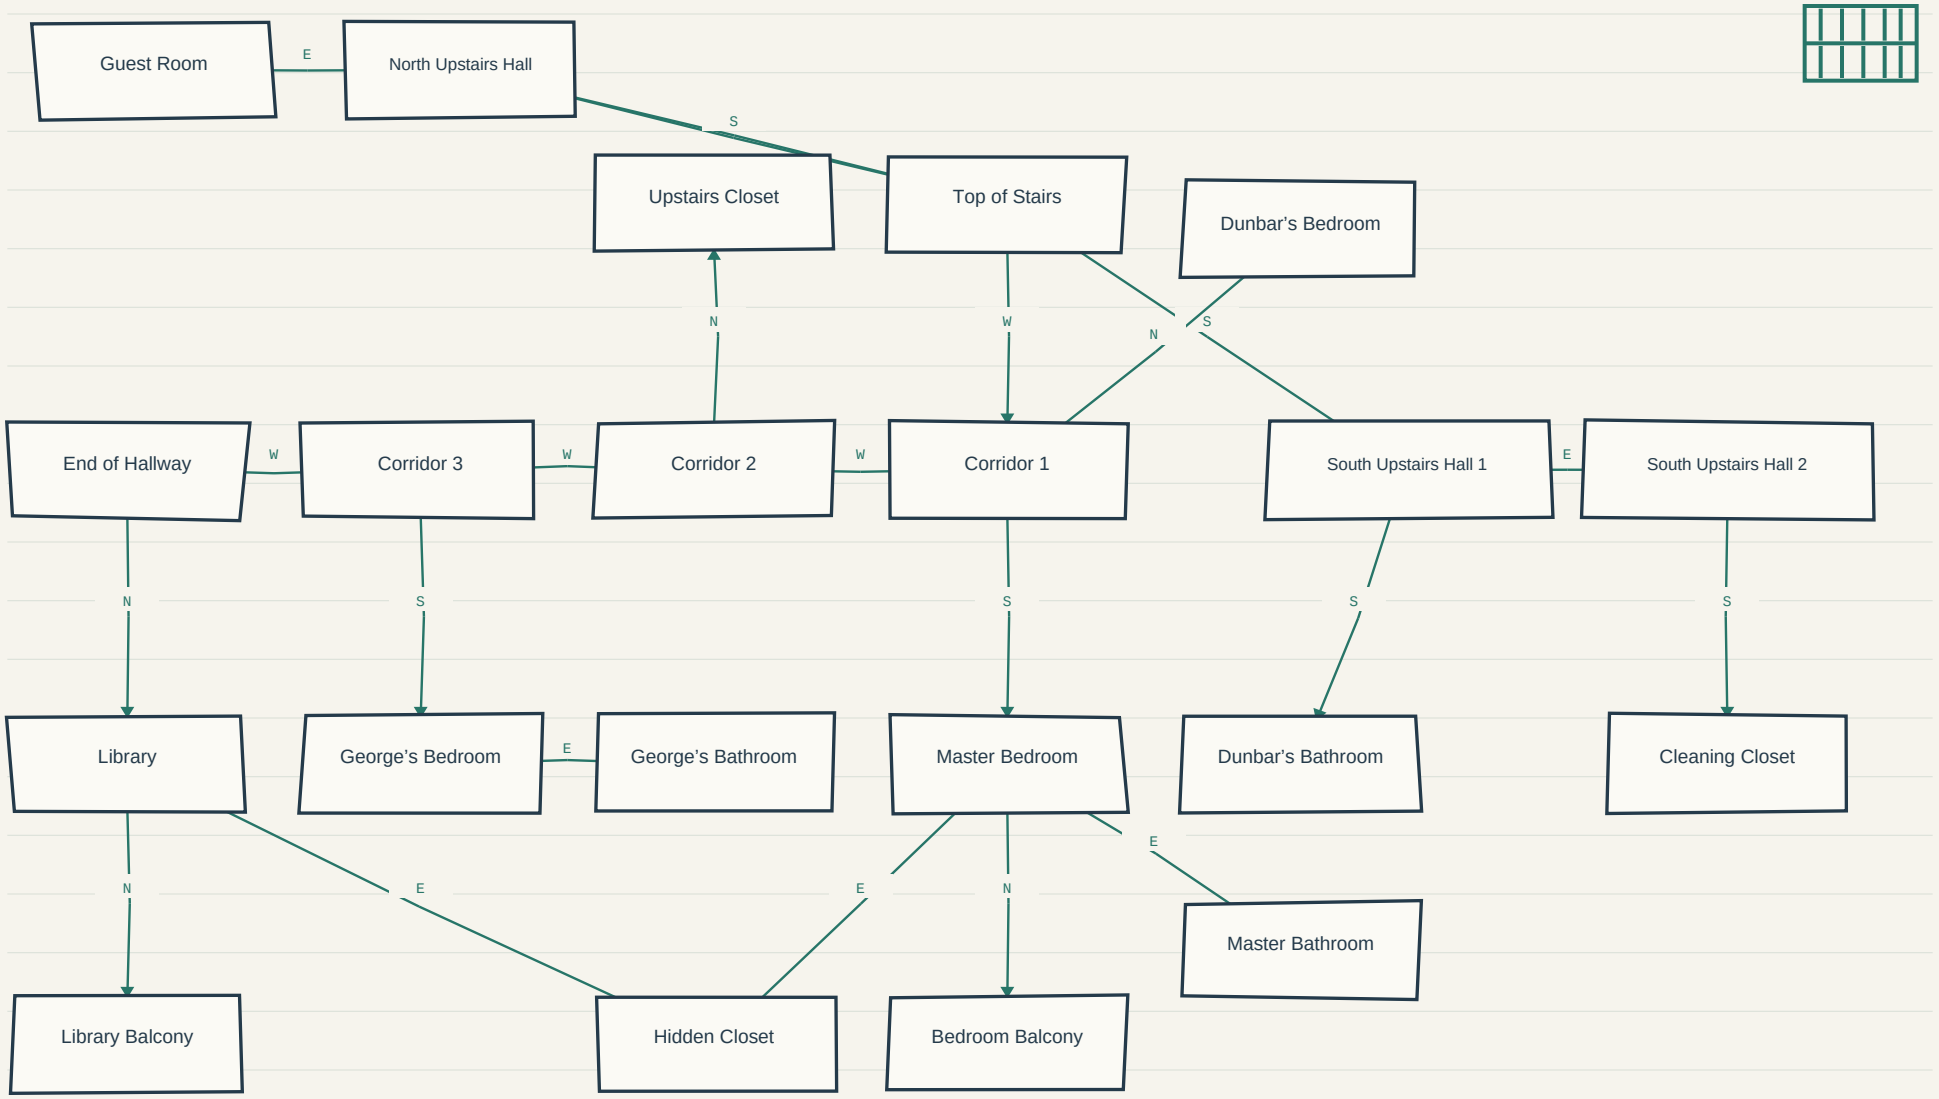
14 first-floor rooms | front door to the south; the stair landing connects to the upper map



The front door and bedroom doors may be closed. Open doors are shown as direct links in this field sketch.

MAP 3 | SECOND FLOOR

21 upper-floor rooms | corridor runs west from the stairs; closet and bedroom links are door-controlled



The Hidden Closet lies between the Library and Master Bedroom. Library Balcony descends to Among the Roses by ladder.

CASE NOTES & REPLAY CHECKPOINTS

Use these checkpoints to confirm evidence, timing, and the ending while following the commands.

After command 16	The note-pad impression is legible; July 8 says the will was completed.
After command 49	George has seen the calendar clue before the will reading.
After command 105	George’s hidden closet has yielded the new will and the Focus papers.
After command 148	Duffy has begun the fragment analysis; after 163 the LoBlo report is available.
After command 169	Dunbar responds to the lab report; follow her to observe the concert-stub event.
After command 194	Baxter has heard Dunbar’s account. Arrest the pair at command 195.
Command 196	Answer n to the author-summary prompt; the runner halts after the solved-case message.

Clean replay audit

Story ID	V3 | release 27 | serial 831005 | checksum 54FC
SHA-256	df14b33428bff5057b6569427da5d9be3ccb92497b6d2d0ea7b1d3821739d629
Replay	196 commands | 269,606 instructions | deterministic seed 31415
Final state	Living Room | 2:55 p.m. | halted after solved-case ending
Deaths	0 in the successful fresh game and replay
Trace inventory	53 unique instruction mnemonics; generated by the clean route replay

Deadline’s perfect solution requires more than arresting the correct suspects: gather the Focus motive, LoBlo method, and conflicting concert accounts before the joint arrest. The route demonstrates that chain and finishes with the conviction ending. Keep the route and trace under .agent/regression-routes/ for local regression; neither requires CI story assets.

EXECUTED OPCODE INVENTORY

Unique opcodes observed in the successful 269,606-instruction replay trace.
