Before you start

Start a fresh Release 29 game and use random seed 1. This deterministic seed keeps the Adventurer in the Map Room long enough to lead him to the Guarded Door.

Read spells before copying them into the illuminated book. Keep the egg for the Adventurer, use the pencil and parchment to solve the map, and follow the rest stop before carrying the Turtle's brittle scroll back from the Engine Room.

After the map puzzle, drop the used map, pencil, jug, and bread before taking the powerful Guncho scroll through Kulcad's dissolving stairway. Cast Gondar on the dragon, Vaxum on the shape, then Guncho on Krill.
