INFIDEL

Maximum-score no-death walkthrough

A fresh-start route from the expedition camp to the buried pyramid's 400-point finish

VERIFIED SAFE FINISH

400 / 400

239 commands | 237 moves | zero player deaths

209,967 executed instructions | seed 1

56 opcode rows | Release 22 | Serial 830916

Before you start

Begin from a fresh Release 22 game with random seed 1. This route reaches the full 400/400 score in 237 moves and exits without a player death.

Keep the torch lit through the tomb sequence. Refill the canteen whenever the route says to drink; the named gemstone clusters and paired chalices must be placed in their matching recesses and discs.

Important ending choice: turning all four statues releases the sarcophagus and triggers the final torch burnout. The score is already perfect. Enter “quit” and confirm “yes”; opening the sarcophagus causes the player’s unavoidable fatal ending.

Score checkpoints

5 / 400
Recover the expedition lock; first points at the camp.

50 / 400
Use the shovel and cube to expose the pyramid entrance.

200 / 400
Collect all four gemstone clusters from the turning halls.

245 / 400
Recover the barge beam after reading the scroll.

315 / 400
Open the Annex and collect the book and spatula.

400 / 400
Set all four statues, then quit without opening the sarcophagus.

ENDING VERIFIED

At 400/400, the statues release the sarcophagus. Quit and confirm “yes” before opening it: the verified perfect-score sarcophagus ending is fatal.

The route visits 47 locations across four schematic field maps.

The fatal sarcophagus opening is intentionally omitted; quit after confirming 400 / 400.
